

### Paikalla

Suvi Vendelin  
Petteri Heliste  
Susanna Koistinen  
Nova (Kooma)  
Emilia (Maanmittauskilta)  
Aaro (Arkkitehtikilta)  
Ingrid (TF)  
Aaro (Prodeko)  
Olli (Tietokilta)  
Santeri (AS)  
Saara (Fyysikkokilta)  
Iida (Nude)  
Cecilia (Athene)  
Olli (koneinsinöörikiilta)  
Aarni (Sähköinsinöörikiilta)  
Laura (IDBM)  
Pauli (Probbba)

1. Opening of the meeting
2. News
  - From campus
  - Tour of Väre was liked, it looked good
  - Kooma is organising an event about student benefits in Aalto, changes to housing benefit are coming
  - Department of Built Environment is now in the same place, that's nice
  - New timetables and schedules are still discussed in the architecture. Also the new space and their furniture is a hot topic. Interior design architects are probably going to be joined to the same department and that is planned now.
  - TF was active during the municipal elections with a panel. The website for Swedish studies is updated. A meeting with the head of Aalto is coming.
  - SCI decided to give stipends to well performing students and that has sparked some discussion in the guilds.
  - New Data science bachelor programme is coming together.
  - Physics guild did a questionnaire to their members about what kind of events they would like, own courses and excursions would be liked.
  - Nude met with their programme leader and it looks that Otaniemi will get a glass workshop (Jee!). They also discussed the workload and stress levels of the students, and one idea is that they could track voluntary students in the fall on how much they do work.
  - Athene has been focusing on making their organisation more open to international students.
  - SIK is doing their traditional questionnaire to their students about studies.
  - IDBM was active in giving ideas to the programme to develop their brand, but the welcome wasn't that good before. Now they have joined forces and things will progress in the fall. IDBM klubi is having a big event or a conference to present the works students do, invitations will be coming.

- Probba had a student workshop on "how to learn", it was a laid back event and was good. They are planning on doing it again to freshmen in the fall.

#### AYY

- Credit transfer guidelines have been discussed a few times and it's running smoothly. The goal is to harmonize the guidelines and update the official rules. Especially we have discussed when it is possible to get the courses substituted straight away and when participation to an exam or other way of proofing your knowledge is needed. This should be ready in summer or early autumn, but the new rules would be in effect later.
- Guidelines for the new 2 year long curricula are also progressing very well. First draft has been discussed and it included the way students should be able to participate in the development. Next steps are taken before summer.
- In the same paper there are new period proposals. The academic year would start at the beginning of september with orientations and courses would start on the second week. The fifth period is brought especially up as an opportunity to have intensive courses or other ways of learning, such as online courses.
- Susanna is preparing a larger background paper on the official decision process of student representatives in relation to the Administrative Procedure Act. After that (latest at the end of May) we will gather possible ways from which to choose how to develop the process. For example could the process be lighter or should the periods be longer. No changes will be made without discussions.
- Comments about language teaching

- AYY elections are coming at fall, become a candidate!
- AYY is meeting all the deans 1 on 1 in the next weeks, if you have something you wish us to talk to them.
- New president will be elected, AYY has a position on the preparing group.
