

Model Application

This is how you apply to be a student representative

Example Science degree programme, School of Model Sciences

Hi! I'm Alli Aaltoperson, and I'm interested in applying to become a student representative in administration in the Academic Committee of Model Sciences. I'm a second-year Example Science student with an interest in study affairs and the development of the Aalto community. This year, I've acted as a tutor, and for next year, I'm applying to be the secretary of the student organisation. I have plenty of ideas on how to increase communality and the flexibility of studies in our school. I also want to ensure that we have work spaces that stay open late enough and contain modern software and work equipment. There has been feedback on this from students, and studying is more difficult without them.

Relevant experience

Stage of studies

Interest in and commitment to the task

Most important development targets in Aalto University or your School

Ability to hold their position

I'm available to act as student representative for the whole of 2019. Alongside this post, I intend to be active in the student organisation, so I will have good means to keep in contact with it. I'm a good conversationalist who can take into account various points of view on any given topic. At the same time, I give clear reasonings for my views. I find it important for the Academic Committee of Model Sciences to gain a student representative like me, as I'm used to asking students for their opinions on the teaching and its arrangements. I have a passion for developing our school.
